RECSYSTEM TECHNICAL FEATURES

Brand	Recsystem
Composition	100 % Solution Dyed Acrylic
Width	60" ±1 %
Weight	9.60 oz ±5 % (UNE 53352)
Finish	Acrylic resin one side, Fluorocarbon finished both sides
Water Column	>1000 mm (UNE EN ISO 20811)
Standard Roll Length	65.64 yds

One way we believe “we’re woven differently” is the way we respond to consumer demand; we’re continually looking to our customers to guide us as we diversify our product line. Based on an increasing demand for an acrylic fabric that has superior performance under extreme weather conditions, we present Recsystem, a highly durable resin coated solution dyed acrylic for the Marine and Awning Industry.

*We're woven differently*

RECASENS USA  
BCN  1886

- Outstanding fade resistance only solution dyed acrylic fabrics can provide.
- Withstands harshest weather conditions.
- Blocks up to 99% of harmful UV rays.
- Dirt and oil repellent, mildew resistant, and antibacterial.
- Superior water resistance due to double coating (Fluorocarbon both sides, acrylic resin one side).
- Combines waterproofness and breathability.
- Will not unravel when scissor or knife cut.

## New undercoating.

Our new undercoating is nearly invisible from most angles, contains two different and highly effective antimicrobial agents, eliminates leaking and misting in driving rain storms, and is highly resistant to crazing and marking.
